

Upgrade your e-health capability with secure messaging

Secure electronic messaging software enables health professionals to send and receive sensitive or confidential documents electronically and securely. It's simple, easy and will save you time and money.

CONNECT WITH COLLEAGUES

- Send and receive patient related correspondence safely and securely.
- Direct access to other connected health care providers – GPs, Specialists, allied health, pharmacies and hospitals.

COST EFFECTIVE

- Saves on postage, scanning, faxing and time.
- In a recent GPpartners survey, secure messaging users agreed that it reduced time spent managing incoming and outgoing patient correspondence.

- GPs only need to send 4 referrals or reports per week for secure messaging to pay for itself.
- Specialists and Allied Health providers only need to send 7 referral or reports per week for secure messaging to pay for itself.

COMPATIBLE

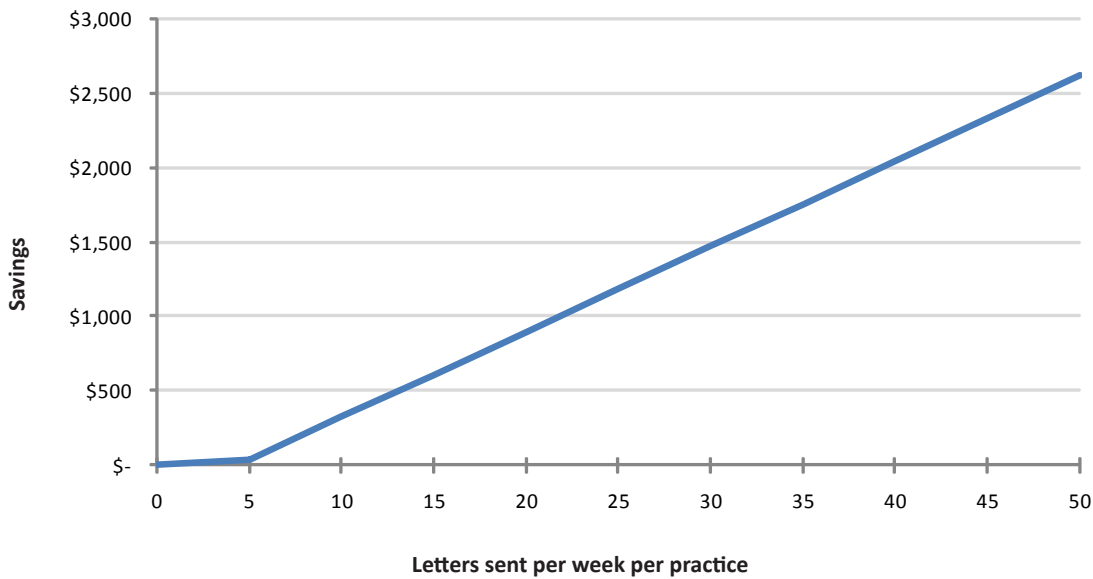

- Integrates fully with most clinical software packages.

GP Savings per Annum

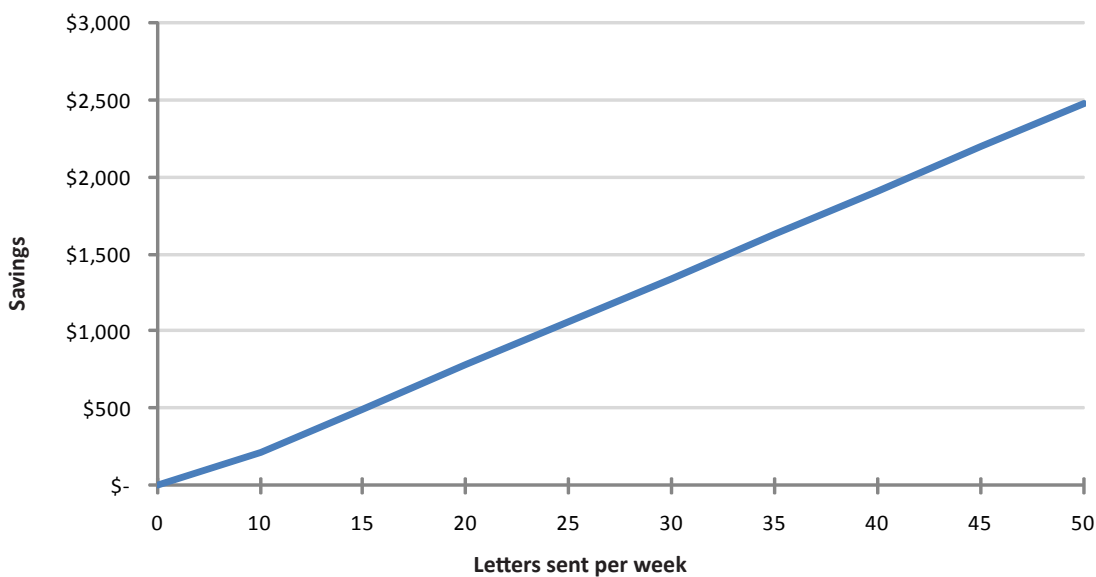

"I rate the product and assistance from GPpartners very highly." — General Practitioner, St Lucia

Specialist Savings per Annum

"Very impressed with the whole setup. From installation to usage, we have been very happy and only wish our whole software system worked as smoothly! We will certainly continue use once the free trial is up as we have monitored costs saved in printing and postage, and been pleasantly surprised." — Paediatrician, Spring Hill.

Allied Health Savings per Annum

"No problems, it has been easy and time saving." — Dietician, Bracken Ridge

- Assumptions of calculation of figures:
- Secure messaging software cost \$250/year, per GP practice; \$550 per Specialist; \$350 per allied health provider.
 - Costs for management of received and sent correspondence are based on a business survey conducted by GPpartners from real practice data.
 - Internet Service Provider costs excluded.
 - Calculated on 48 weeks per annum.
 - Calculated on a wage of \$17/hour – taken from Health Professionals & Support Services Award 2010.
